Price: Upon Request

Apartment

Rif: To 209

A new bold and contemporary architectural project emerges between Piazza Solferino and Piazza San Carlo, in the heart of the historic centre of Turin. The existing structure is reinterpreted with character and rigor to give shape to a compelling construction. Clear cuts sculpt the views, the light inspires the structure and the large windows that characterize all the rooms open up new perspectives on the city. The historic and modern facades of the surrounding buildings dialogue with the interior of the apartments. The apartment is spread over four levels: the first has, according to the current project, a large glazed living room, three bedrooms and 4 bathrooms; an internal staircase leads to the second level where there is the dining area with open kitchen, directly overlooking a large terrace with plants, solarium area and jacuzzi. A bedroom and a bathroom are available next to the dining area. The staircase then leads to two successive levels of terraces, used as solarium and conversation area.

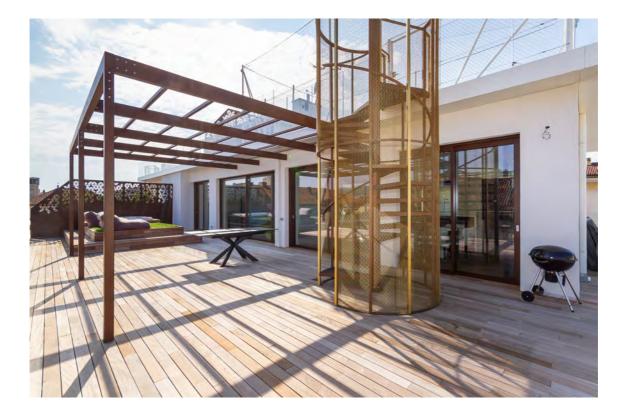

Style: Modern Surface area: 532 sqm Bedrooms: 5 Bathrooms: 4 Terrace: yes
