Villa

Rif: To 388

Stunning villa with heated swimming pool surrounded by greenery located on the first hill of Turin, a few minutes away from the city centre. The construction project was entrusted to a well-known Turin architect, who used the most up-to-date technologies and paid great attention to energy performance. Iron, concrete, glass and wood integrate with the surrounding landscape making the structure truly one of a kind. Even the suggestive garden was entirely created by a Turin landscape architecture studio that has been dealing with the most prestigious private and non-private residences in the area for more than twenty years.

The property extends over two levels, has a bright, fully glazed living area overlooking the garden, a modern open kitchen, a sleeping area which has a master room with bathroom and dressing room and a second bedroom with bathroom and dressing room. On the lower floor we find a modern Technogym gym, a guest bedroom with bathroom and a huge storage room for laundry, storage and cellar use. Closed garage for 4 cars.
