Between Piazza Solferino and Piazza San Carlo, in the heart of Turin's historic centre, a new contemporary architectural project is taking shape. The large glazed surfaces ensure bright interiors and open views over the city.

Located on the third floor, the apartment is offered fully furnished with high-quality finishes and furnishings. As specified in the project, it comprises an entrance hall, a large and bright living room with triple exposure, a dining area and a kitchen separated from the living room by elegant glass walls. A laundry room and pantry are located close to the kitchen.

The sleeping area includes a primary suite with walk-in wardrobe and en-suite bathroom, as well as three further bedrooms, each with its own bathroom. The property is completed by a garage, a spa and a private gym, reserved for the exclusive use of the residents.

Parking space included

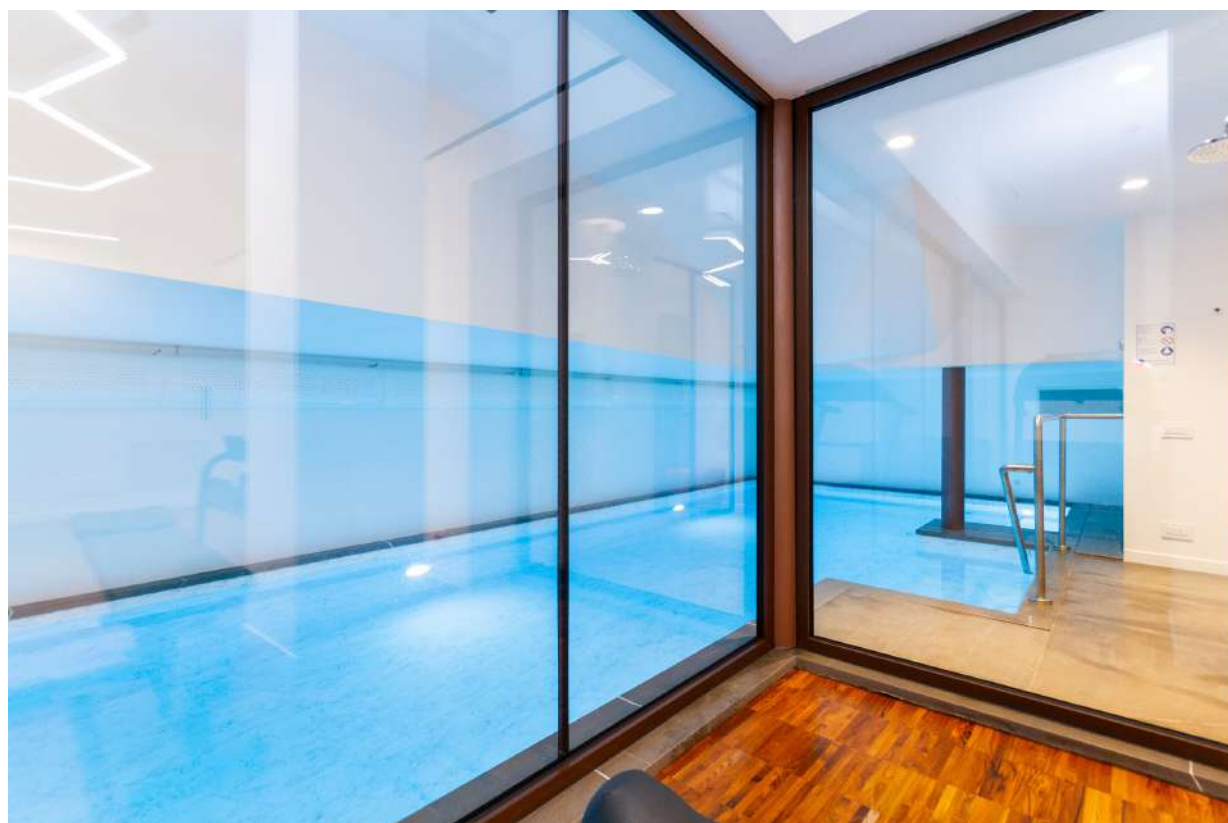

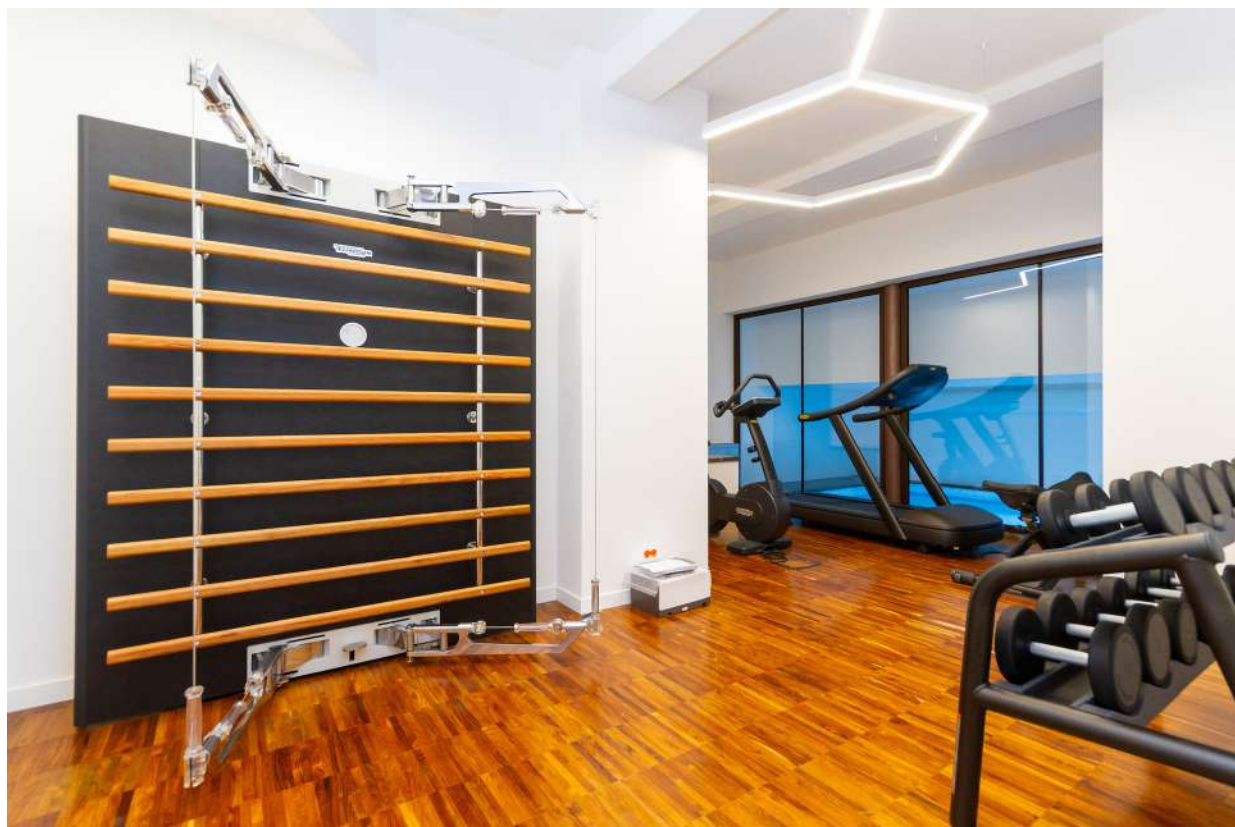

Heating and condominium charges:
